

REFERRAL PARTNER PROGRAM

Earn a recurring 25% commission — for as long as your referral stays an active customer and the Referral Partner Agreement remains in effect — just for making an introduction.

What We Do

ePanicButton is a real-time panic alert and mass notification platform. One click — from a desk, a badge, a mobile app, or a wall-mounted button — instantly alerts front desk, security, management, or 911 with the exact location and nature of the emergency. In market 18 years, purpose-built for lone workers, front-line staff, schools, healthcare, and multi-site businesses.

Who Makes a Great Referral Partner

- Insurance brokers and risk consultants
- Workplace-safety and HR consultants
- Security consultants who don't want to own ongoing support
- IT consultants and business coaches with an active client network
- Anyone whose network includes business owners, facility managers, or safety directors

What You Do — and Don't Have To

Send us the introduction. That's it.

- No sales calls, demos, or proposals required
- No onboarding or account management required
- We handle the entire sales process, contract, and ongoing support

What You Earn

A recurring 25% commission on subscription revenue collected from every account you refer, for as long as that account stays active and the Referral Partner Agreement remains in effect. Paid monthly, automatically.

Account Size	Annual Commission
10 users	\$255.00 / yr
25 users	\$637.50 / yr
50 users	\$1,147.50 / yr
100 users	\$2,040.00 / yr
250 users	\$4,462.50 / yr

Illustrative examples based on current pricing tiers. Refer a handful of mid-size accounts and the recurring commission compounds every year — with no renewal work on your part.

What We Provide

- A simple referral submission process (form, email, or partner portal)
- Approved marketing materials you can share as-is
- Monthly commission statements
- A dedicated partner contact

Proven in the Real World

A recent snapshot of logged incidents by category, straight from our system — End Customers actually using ePanicButton for:

**2008 through July 2026*

Category	Logged Incidents
Serious incidents	27,811
Medical	13,723
911 dispatch	10,227
General support requests	3,042
Lockdowns	152
Private security dispatched	126
Fire	75
Bomb threats	11
Total logged	52,562

TESTIMONIALS

- "One of our nurses faced an irate patient carrying a knife. She sent an ePanicButton alert. Responders arrived quickly, and no one was hurt. ePanicButton worked perfectly."

— Bob Ross, Brockton Neighborhood Health Center
- "We had a customer who didn't understand a Health Department rule and stayed for an hour. Our employee sent a low-level ePanicButton request. Everything was handled well — it worked exactly as planned."

— Townsend Collins, Mecklenburg County, NC

A Few Things to Know

- Commission applies once your referral becomes an active, paying subscriber, and continues only while the account stays active and the Referral Partner Agreement remains in effect
- Referrals must be new to us — not a company we're already talking to
- You can describe what ePanicButton does using our published marketing materials, but not beyond that — it's a communications platform, not a monitored emergency response or insurance service
- Commissions are reported monthly and paid within 30 days of month end
- Full commission terms — including what happens if the Agreement ends, or if ePanicButton is sold, merged, or closes — are set out in the Referral Partner Agreement

How to Apply

- Tell us about your business and network — quick partner application
- Sign the Referral Partner Agreement (straightforward, spells out commission and terms)
- Start referring — we'll send you the intake process and marketing materials
